XXL ELECTRICAL ENCLOSURES WITH HIGH CAPACITY

- **Electrical solutions without limits:** XXL electrical enclosures with large dimensions for big projects.
- Maximum efficiency with maximum safety: **our XXL electrical enclosures have everything under control.**
- **All in one and in order:** simplify your systems with our high-capacity XXL electrical enclosures.
- Enclosures with easy disassembly design, offering options with **one, two, three, four, or even five hinged doors, allowing adaptation of different widths** between each module.
- All our high-capacity e**nclosures have an IP66 protection,** which can be elevated **up to IP6K9K.**
- Power and protection combined: discover our cutting-edge **XXL electrical enclosures certified under the American Nema UL standard,** ensuring their quality and safety.

At Delvalle, we specialize in manufacturing certified electrical enclosures for the industry, with XXL high capacity. Consolidate all electrical installations in one place: XXL electrical enclosures of high performance for your industrial needs.

At Delvalle, we present a wide selection of enclosures to cover all needs. Our Tribeca Series offers a compact enclosure with high capacity, specially designed to withstand demanding environmental conditions and protect equipment in corrosive environments.

Likewise, our Fresh Tribeca Series is perfect for meeting the demands of the food industry, providing greater accommodation capacity for electrical components. With these models, we ensure to provide tailored solutions for all needs.

delvalle®

At Delvalle, we can manufacture the width and height you need to adapt to your specific requirements, with dimensions of up to 5000 mm. wide, 2200 mm. high, and with a depth of up to 1500 mm. to accommodate large-sized equipment and components.

Compact Electrical Enclosure - Tribeca Series

The compact electrical enclosure from the Tribeca Series has been designed to withstand extreme environmental conditions, providing protection for electrical equipment in corrosive environments that require ample accommodation capacity.

Applications:

- Designed for the placement of automation systems, machine controls, counters, and approved for use in the food industry, pharmaceuticals, power substations, telecommunications, both indoors and outdoors.

Hygienic Electrical Enclosure - Fresh Tribeca Series

The hygienic electric enclosure with inclined roof from the Fresh Tribeca series features an innovative design through the inclination of the roof, in addition to being made without openings, hinges, or water channels that could harbor bacteria, ensuring an optimal sanitary environment.

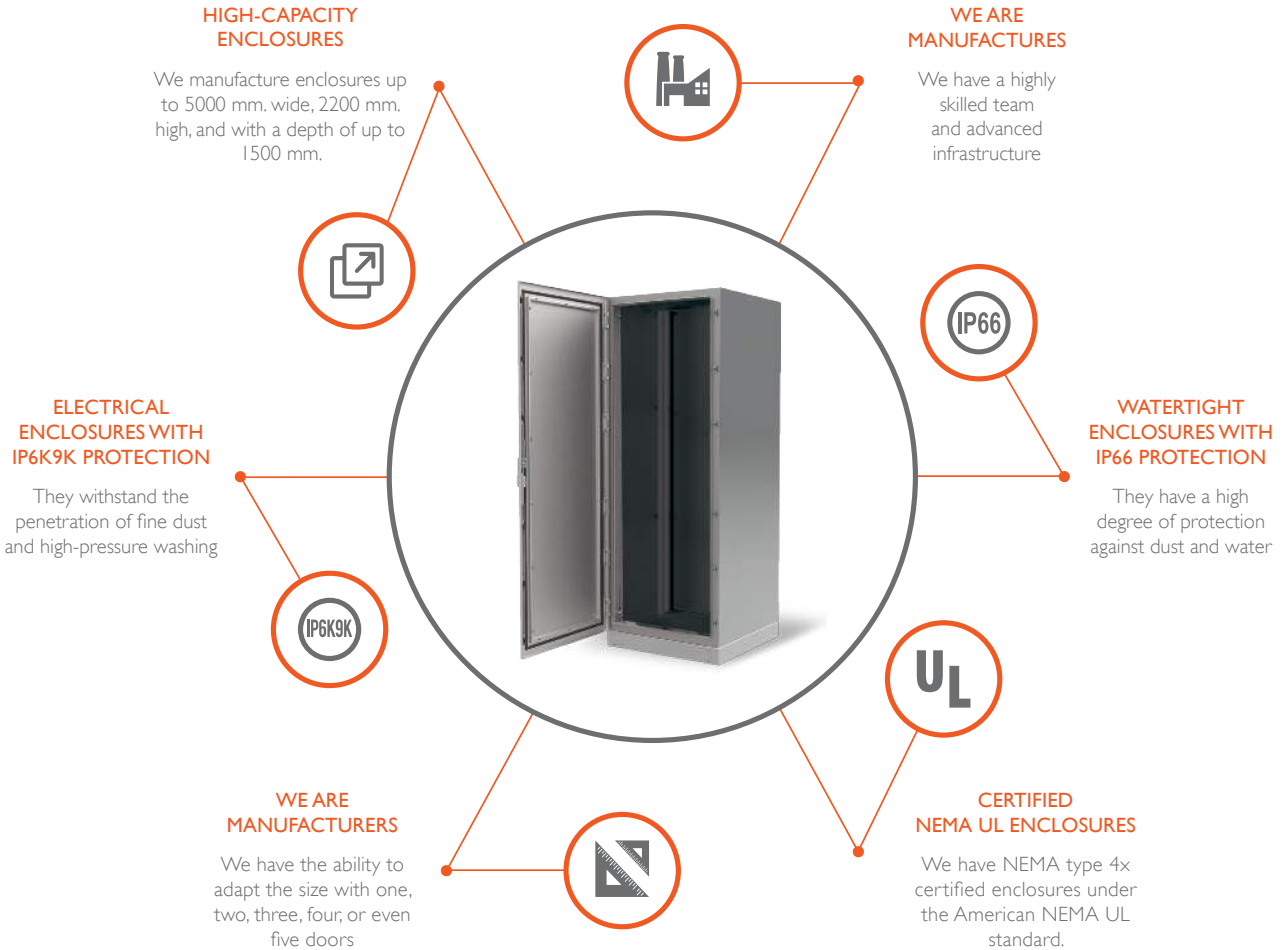

Applications:

- Specially designed for the food industry, clean rooms, pre-cooked food processing, dairy companies, wineries, or any other place where a clean environment and absence of dust, dirt, and bacteria are essential.

WE MANUFACTURE CUSTOMIZED XXL ENCLOSURES

At Delvalle, we take pride in providing high-quality and durable solutions for the protection of electrical or electronic equipment across a wide range of industries.

- We are manufacturers: we have a highly skilled team of professionals and advanced infrastructure to manufacture high-quality electrical enclosures.
- We custom-make the width and height you need: we have the capability to adapt the size with one, two, three, four, or even five hinged doors to meet the specific requirements of each project.
- High-capacity enclosures: we produce enclosures with a width of up to 5000 mm., height of 2200 mm. and a depth of up to 1500 mm. to accommodate all types of large-sized equipment and components.
- Watertight electrical enclosures with IP66 protection: our electrical enclosures have a high degree of protection against dust and water, ensuring the integrity of the equipment in adverse environments.
- Electrical enclosures with IP6K9K protection: the electrical enclosures are designed to withstand the penetration of fine dust and high-pressure washing where frequent and rigorous cleaning is required.
- Certified electrical enclosures according to Nema UL: we have Nema type 4x certified enclosures under the American Nema UL standard.
